CORPORATE PRESENTATION
Q2 2025

DISCLAIMER

This presentation contains certain “forward looking statements” and certain “forward-looking information” as defined under applicable Canadian and U.S. securities laws. Forward-looking statements and information can generally be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “intend”, “estimate”, “anticipate”, “believe”, “continue”, “plans” or similar terminology. The forward-looking information contained herein is provided for the purpose of assisting readers in understanding management’s current expectations and plans relating to the future. Readers are cautioned that such information may not be appropriate for other purposes. Forward-looking statements and information include, but are not limited to, statements with respect to the use of proceeds from the offering of units of Silver Crown Royalties Inc. (“SCRi”, the “Company” or “Silver Crown Royalties”). Forward-looking statements and information are based on forecasts of future results, estimates of amounts not yet determinable and assumptions that, while believed by management to be reasonable, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual actions, events or results to be materially different from those expressed or implied by such forward-looking information, including but not limited to: the impact of general business and economic conditions; the absence of control over mining operations from which SCRi will purchase gold and other metals or from which it will receive royalty payments and risks related to those mining operations, including risks related to international operations, government and environmental regulation, delays in mine construction and operations, actual results of mining and current exploration activities, conclusions of economic evaluations and changes in project parameters as plans continue to be refined; accidents; SCRi’s ability to enter into definitive agreements and close proposed royalty transactions; the inherent uncertainties related to the valuations ascribed by SCRi to its royalty interests; equipment breakdowns, title matters, labor disputes or other unanticipated difficulties or interruptions in operations; problems inherent to the marketability of silver and other metals; the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses; industry conditions, including fluctuations in the price of the primary commodities mined at such operations, fluctuations in foreign exchange rates and fluctuations in interest rates; government entities interpreting existing tax legislation or enacting new tax legislation in a way which adversely affects SCRi; stock market volatility; regulatory restrictions; liability, competition, the potential impact of epidemics, pandemics or other public health crises on SCRi’s business, operations and financial condition, loss of key employees. SCRi has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers are advised not to place undue reliance on forward-looking statements or information. SCRi undertakes no obligation to update forward-looking information except as required by applicable law. Such forward-looking information represents management’s best judgment based on information currently available.

DISCLAIMER

The securities of the Company have not been registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

This document does not constitute an offer to sell, or a solicitation of an offer to buy, securities of the Company in Canada, the United States or any other jurisdiction. Any such offer to sell or solicitation of an offer to buy the securities described herein will be made only pursuant to subscription documentation between the Company and prospective purchasers. Any such offering will be made in reliance upon exemptions from the prospectus and registration requirements under applicable securities laws, pursuant to a subscription agreement to be entered into by the Company and prospective investors.

The technical information in this presentation has been approved by Mitchell E. Lavery, P.Geo technical advisor to the Company and a Qualified Person as defined by National Instrument 43-101 - *Standards of Disclosure for Mineral Projects*.

DISCLAIMER

Ontario Offering Memorandum

This presentation is considered to be an “offering memorandum” in certain provinces of Canada. Securities legislation in certain provinces of Canada in which an offering of securities of the Company is being made provides purchasers, in addition to any other rights they may have at law, with a remedy for rescission or damages, or both, where an offering memorandum or any amendment thereto, contains a misrepresentation. A “misrepresentation” is generally defined under applicable securities laws as an untrue statement of a material fact, or an omission to state a material fact that is required to be stated or that is necessary to make any statement not misleading in light of the circumstances in which it was made. These remedies, or notice with respect thereto, must be exercised or delivered, as the case may be, by the purchaser within the time limit prescribed, and are subject to the defenses contained, in the applicable securities legislation. Canadian purchasers should refer to the applicable provisions of the securities legislation of their respective provinces for the particulars of these rights or consult with a legal advisor. The following is a summary of the rights of rescission or rights to damages available to purchasers. In this regard it is not intended that this presentation is to be made to residents of any jurisdictions outside of Canada and thus the following summary does not address any rights of rescission or rights to damages available to purchasers in any other jurisdictions outside of Canada.

Under Ontario securities legislation, certain purchasers who purchase securities offered by an offering memorandum (including this presentation) during the period of distribution will have a statutory right of action for damages, or while still the owner of the securities, for rescission against the Company or any selling security holder if the offering memorandum contains a misrepresentation without regard to whether the purchasers relied on the misrepresentation. The right of action for damages is exercisable not later than the earlier of 180 days from the date the purchaser first had knowledge of the facts giving rise to the cause of action and three years from the date on which payment is made for the securities. The right of action for rescission is exercisable not later than 180 days from the date on which payment is made for the securities. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against the Company or any selling security holder. In no case will the amount recoverable in any action exceed the price at which the securities were offered to the purchaser and if the purchaser is shown to have purchased the securities with knowledge of the misrepresentation, the Company and any selling security holder will have no liability. In the case of an action for damages, the Company and any selling security holder will not be liable for all or any portion of the damages that are proven to not represent the depreciation in value of the securities as a result of the misrepresentation relied upon.

ABOUT THE CONCEPT

WHAT WE DO

The mechanics of royalties

HOW IS THAT DIFFERENT?

Applying discovered opportunities

Royalties:

- ❖ Created by prospectors
- ❖ Cover all metals/minerals
- ❖ Registered on title
- ❖ No investor protection
- ❖ Real option value

Streams:

- ❖ Single element/mineral
- ❖ Created by operator
- ❖ No/very little investor protection
- ❖ Secured debt instrument
- ❖ Not on title

Silver Crown Royalties:

- ❖ Single mineral
- ❖ Mutually beneficial royalty instrument created by SCRI
- ❖ Allows operator to create value from byproduct/coproduct mineral
- ❖ Investor protection
 - ❖ minimum delivery obligation
 - ❖ investment amount spread out in multiple tranches contingent on operational and exploration success by operator
- ❖ Registered on title

IMPROVING ON THE ROYALTY MODEL

Investments

- First to create single element NSR royalty (90% silver only), structured with built in safeguards, including minimum silver payment obligations and registered on title
- Aim for minimal economic impact (usually under 2%) / pick up the crumbs
- Target a return on investment – use portfolio approach (diversification / staged deployment); target allocation no more than 10% of SCRI's total capital on any single project

Infrastructure

- Target projects with no existing resources/reserves
- Mines, Mills, Smelters, Refineries, Recyclers, Autoclaves, Off-takers, etc.
- Higher of output or minimum number of ounces deliverable

Incentives

- Investments structured using staged payments
- Reward production increases and exploration success, minimize cash up front
- Equity utilized as consideration for royalty acquisition wherever possible

ACCOMPLISHED

2023 2024 2025

- Raised C\$1.0 million
 - Closed 1st Tranche of PPX royalty and received royalty payment for Q1
 - Filed inaugural annual information form and audited annual financial statements
-
- Raised >C\$5.0 million in gross proceeds, deployed C\$3.3 million in capital
 - Commenced trading on Cboe Canada, OTCQX and the Boerse Frankfurt
 - Doubled minimum silver equivalent payments to 22,000 ounces per year
 - More than tripled revenue over 2023
 - Closed 2024 with three royalties, two executed two definitive agreements and a path to potential free cash flow in 2025
-
- Raised >C\$5.0 million in gross proceeds from two financing rounds (\$4 and \$8)¹
 - Created silver-only royalties on two producing mines with novel minimum delivery obligations ¹
 - Generated revenue¹
 - Increased minimal silver equivalent payments to 10,000 ounces per year from zero
 - Deployed C\$3.7 million in capital

THE TEAM

BOARD AND MANAGEMENT

Peter Bures

Founder, Chairman and Chief Executive Officer

Peter Bures is a Geological and Mineral Engineer with 25+ years of mining and metals capital market expertise. Recent experience includes CEO at C2C Gold, Co-Founder and Chief Business Development Officer at Star Royalties, Director Global Mining Sales at BMO Capital Markets (New York) and Portfolio Management at Sentry Investments where he co-managed several top-ranked funds. He also held various equity research roles, including VP Analyst at Canaccord Genuity, HSBC (New York and Toronto) and Orion Securities. Mr. Bures began his career as a mining engineer at Placer Dome and is a graduate BAsc Geo. Eng. University of Toronto.

Philip van den Berg

Lead Independent Director

Philip van den Berg has over 35 years of capital markets expertise in Europe managing capital market transactions, public listings and mergers and acquisitions. Past experience includes, investment analyst, head of research and investment policy committee member. The majority of Mr. van den Berg's sell-side experience was with Goldman Sachs (1987 London) European equities division, then Deutsche Morgan Grenfell (1995) re-establishing its European equities division. In 1997 he moved to the buy-side as co-founder of Olympus Capital Management, and Taler Asset Management (2006) in Gibraltar. In 2014 he became an active investor in various start-up companies in Europe and the US in director and CFO roles. Mr. van den Berg graduated 1985 cum laude in economics at the University of Amsterdam.

Hassnain Raza, CPA, FCA, FCCA, MBA, CIA

Chief Financial Officer

Hassnain Raza is a CPA with 20+ years of financial experience in Canada, USA, Europe, Asia and the Caribbean serving both public and private sector clients. Mr. Raza is the founding partner of a boutique consulting firm specializing in CFO advisory services to start-ups and SMEs. Previously held senior management and leadership roles at Namaste Technologies, and Senior Manager at KPMG. He is founder and patron of Alama Iqbal Model School in Pakistan, providing free education (kindergarten – grade 10)

Peter Simeon, LLP

Independent Director

Peter Simeon has over 20 years of experience as a lawyer focused on securities, corporate finance, and mergers and acquisitions. Since February 2015 he has been a partner at Gowling WLG (Canada) LLP and has extensive experience in corporate commercial and securities law. Prior to 2015, he was a partner at a boutique corporate law firm in Toronto. Mr. Simeon has a Bachelor of Arts from Queen's University and a law degree from Osgoode Hall at York University. Mr. Simeon acts as an independent director on several publicly traded companies in Canada.

Zac Kotowych

Corporate Development

Zachary Kotowych is a geophysicist with over half a decade of mining and metals capital market experience. Previous roles include equity research positions at Haywood and Red Cloud Securities. Additionally, he worked as an exploration geologist at Solstice Gold, Great Bear Resources (now Kinross Gold Corp.), and Carlisle Goldfields (now Alamos Gold). Mr. Kotowych holds an MSc in Geophysics, and a BSc in Mathematics and Geology, both from the University of Toronto.

Peter Schloo, CPA, CA, CFA
